FINAL PROJECT PART 5 - FINAL DRAFT

Check the instructor's comments for this assignment to find a peer review document authored by your classmate. Feel welcome to incorporate your peer's suggestions into your draft. If you don't see an attachment there, then it was probably not submitted on time, and you'll have to be your own editor. Either way, submit the final draft of your paper by the due date.

The paper should have a title page with
- the paper title,
- your name,
- the course number,
- the current semester.

The paper should be:
- typed using a traditional 12-point font,
- double-spaced,
- using 1-inch margins,
- between 900 and 1200 words in length, not counting the title page or the bibliography.
- including the updated annotated bibliography at the end.

SCORING RESEARCH PAPER

Category	Criteria	Points
Organization (15 points)	Information is presented in a logical sequence	5
	References are appropriately cited	5
	Format (length, title, font, spacing, margins)	5
